Gérard Wilfried BIHINA

« Winix »

Junior Full Stack Developer

IT maintenance · Network administration

> IT enthusiast trained at IAI Cameroon and certified in Cisco CCNA, CompTIA A+, Meta and IBM. I am building NOVAIA, a web application with a working demo, and I deployed a live neighbourhood Wi-Fi network (Sharingan). I am looking for an **internship or a job** in a tech company, a startup, a web agency or an IT services company.

PROJECTS

NOVAIA · Intelligent personal assistant — 2026 – ongoing

Ongoing personal project · Working demo with AI (Gemini)

- Web app where each user customises their own assistant (name, personality, language), with automatic conversation memory that can be turned off.
- Accounts, conversations, files, natural-language reminders, Free / Premium plans, admin dashboard, installable app (PWA).
- Security: hashed passwords (scrypt), per-user data isolation, rate limiting, data export and account deletion.
- 9,900+ lines of code, 281 automated checks, daily backups, live demo at a fixed address (Tailscale).

Tech stack: JavaScript, Node.js, Express, SQLite, API Gemini, HTML5, CSS3, Git

Sharingan Wi-Fi network — 2025 – present

Nkoabang, Yaoundé · Live neighbourhood network

- Deployed and extended Wi-Fi coverage for the neighbourhood's residents.
- RJ45 cabling checked with a tester, access point installation, mock-up in Cisco Packet Tracer.
- Captive portal and 6 paid plans in CFA francs (by time, by data, overnight, family).
- Day-to-day network administration and user support.

EDUCATION

IAI Cameroon · African Institute of Computer Science — 2022 – 2024

Yaoundé · Computer science training
